

Be sure to check out all the exciting products
Rush Creek has to offer. Visit our web site at:

www.rushcreeklogfurniture.com

Warranty:

All of our products come with a three year warranty on all parts.

Manufacturer Defects:

Defective parts will be replaced at no cost to you. Please send an e-mail to cs@rushcreeklogfurniture.com including photos of the defective part(s) and we will send replacements. PLEASE NOTE: Cracks in logs are not defects. They may develop during the log drying process and do not affect the stability of the piece in any way, and add to the rustic appeal of your log furniture.

If your product needs service, please be advised that Rush Creek reserves the right to decline service when the product is found to be excessively worn, altered in any way, or when damage is caused by acts other than defective workmanship or materials. This warranty is void if the product has been subject to abuse. For service under this warranty, please contact Rush Creek. Please provide your receipt as proof of purchase.

**If you have any problems with your new product,
DO NOT RETURN IT TO THE STORE!**

**Please contact us at 1-866-815-4173,
or e-mail us at cs@rushcreeklogfurniture.com**

Tools Needed For Assembly:

Screwdriver

Assembly Tips:

If you are using an electric screwdriver for assembly, set it at low torque and do not over-tighten the hardware.

Care:

Apply lemon oil with a soft cotton cloth. Do not use products with silicone; these may cause damage to the finish. Do not allow the wood to come in contact with any type of paint remover.

CONNECTIONS:

Changes in temperature and humidity may cause the wood to dry out, which can cause the bolts to loosen. Check the bolts periodically to make sure they are still tight. DO NOT put your wood rack directly against hot radiators or other sources of heat. This may cause the wood to dry and crack.

MOUNTING INSTRUCTIONS

Step 1.

Find the wall studs in the area you want to hang your rack.

Step 2.

Hold the lower section of the rod holders on the wall and use a level to even it horizontally from side to side. Mark the mounting hole positions with a pencil as a reference for drilling.

Step 3.

Hold the upper section of the rod holder in place with your hand, level from side to side and mark the mounting points. Make sure the top and bottom section of the holder are in line with each other.

Step 4.

Drill pilot holes with a drill. Insert wall anchors into the holes. Tighten screws into the wall with screwdriver.
